

Final Coevaluation of Team Members

Goal. To evaluate the collaboration, participation, and professional behavior of each team member during the development of the project.

This evaluation helps identify balanced participation, team collaboration quality and reliability and communication.

Each student must evaluate all other team members individually. The evaluations must be honest, respectful and evidence based.

Coevaluation Questionnaire

For each team member, assign a score from the table below. For that you will download the excel file attached to this assignment, include the name of the members of your team and assign a score to each of them. You can use the following questions to direct your answers.

Questions

Technical Contribution

Did the team member contribute meaningful technical work to the project?

Participation Consistency

Did the team member participate consistently throughout the semester?

Collaboration & Communication

Did the team member collaborate effectively and communicate clearly with the team?

Responsibility & Reliability

Did the team member complete assigned tasks on time and responsibly?

Problem Solving & Initiative

Did the team member actively help solve problems or propose improvements

GitHub Participation

Did the team member actively contribute through commits, reviews, issues, or documentation?

Criterion	Weight	Excellent	Very Good	Good	Regular	No Present
Technical Contribution	2.0	Significant technical contributions with clear impact 2	Good technical participation 1.5	Moderate contribution 1	Minimal contribution 0.5	No contribution 0
Participation Consistency	2.0	Participated actively throughout the semester. 2	Mostly consistent participation 1.5	Occasional participation 1	Rare participation 0.5	No participation 0
Collaboration & Communication	2.0	Excellent teamwork and communication 2	Good collaboration 1.5	Acceptable collaboration 1	Weak collaboration 0.5	No collaboration 0
Responsibility & Reliability	2.0	Always completed tasks responsibly and on time 2	Mostly reliable 1.5	Usually reliable 1	Frequently incomplete tasks 0.5	No responsibility shown 0
Problem Solving & Initiative	1.0	Frequently proposed improvements and solved issues 1	Good initiative 0.75	Some initiative 0.5	Limited initiative 0.25	No initiative 0
GitHub Participation	1.0	Active commits, reviews, and repository interaction 1	Good repository participation 0.75	Some repository participation 0.5	Minimal repository activity 0.25	No repository participation 0
